

I believe that there should always be freedom of the press. I believe in free speech. My concern with the Sinclair Broadcast Group is this:

When a large corporation abuses its power and tries to by-pass the laws protecting us from too much corporate influence in Government and abuses the power of the press it scares me. For millions of people that depend on fair and balanced reporting this Presidential race is not one of the best examples of our media doing the quality job that they are capable of. Therefore it has gone too far for me to ignore when I heard about the Sinclair Group and what they are planning on doing. Please for the sake of future political races and this one, stop the abuse of power by the Sinclair Group.
